Surveying and Geomatics

McKechnie Surveying is seeking qualified, energetic individuals to join our team. The individual shall have the educational background to allow review and assessment by the AOLS regarding application to articles to become an OLS. The individual shall also have experience in Surveying and Geomatics rolls, providing drafting and calculations skills for the various products related to the Surveying and Geomatics profession. Experience with AutoCAD Civil 3-D, and field experience in Land Surveying field techniques and methodology, are a requirement.

McKechnie Surveying offers competitive benefits and a great place to work.

Required Experience

- Familiarity with Survey Sketches,
- Topographic plans,
- Plans of Survey,
- SRPRs,
- Reference Plans,
- Subdivision Plans,
- Condominium Plans and other related products are required.

Additional Qualifications

- Design/drafting of conceptual and final drawings with AutoCAD Civil 3D
- Candidates must have five years minimum experience working with an Ontario Surveying company. (or equivalent jurisdiction having a Torrens-based titles system)
- Preference will be given to someone working towards obtaining their OLS designation
- Strong verbal and written communication skills are a must

If interested, email your resume, cover letter and employment application in MS Word or pdf format. Attention: Kevin Death. kdeath@ksmart.ca
